 Safe Palatable Feed  
 Contains no Cereal Grains  
 Added Vitamins & Minerals  
 100% Australian  
 12.3% Protein

## OMEGA FEEDS

Simple ingredients - brilliant results.

### The suggested feeding guide for No-Grain Blue

1. Feed as a supplement by adding 1kg to 2kg per day to your present ration.
2. Feed as a supplement to replace part of the grain in the ration, eg: replace 1kg grain with 1kg No Grain Blue, etc.
3. Feed as a complete feed – 1kg No-Grain Blue per 100kg of live weight per day plus an equal amount of good quality hay or chaff. Always provide ample clean water.

Omega No-Grain Blue is a safe, palatable and nutrient rich horse feed supplement for the performance and working horse. It has been specifically developed for the performance horse that has problems adapting to, or just cannot tolerate a high grain diet, fussy or 'picky' eaters and young horses not yet conditioned to the high concentrated grain diet. Omega No-Grain Blue is a formulation of oil seed products and meals, legume and pulse seeds, molasses, salt and a balanced vitamin and mineral profile to provide the performance horse with a complete and balanced supplement. Omega No-Grain Blue is a very safe supplement – as the name says, the supplement does not contain any cereal grains, thus reducing your problems of acidosis, laminitis and 'firing-up'. Omega No-Grain Blue is flexible in your feeding programme.

**Ingredients:** Sunflower shell, sunflower kernel, oil seed products, molasses, cracked tic beans, cracked lupins, full fat soy, copra meal, kynofos (D.C.P.) trace-minerals and vitamins. **Storage:** Store in a cool, dry shaded place, and preferably in a sealed container. **THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL • AVAILABLE IN 20KG BAGS**

### Typical Analysis:

Dry Matter	87.8%
Magnesium	0.32% of DM
